

The MONUN Hotel & Spa is born after the accurate restoration of the ancient Spinelli Palace, located in the heart of Apulia, in the province of Taranto. The MONUN Hotel is a tribute to the past of Grottaglie town, this ancient palace was once a noble residence, later for over a century (1886-2007) it was a Convent of the Stimmate Nuns, today it is an elegant Boutique Hotel with a simple but sophisticated style where history and culture play a major role.

Its central location makes all the major city attractions really close and reached by walk, it is in fact adjacent to the fourteenth-century Episcopio Castle and the Ceramics Museum, just a few steps from the famous Ceramics District and also from the downtown. Both for those who travel for work but also for those who travel for pleasure, they will find a welcoming environment since the arrival and they will be surrounded by the warmth of structure, old in architecture but at the same time innovative in technological equipment with its unique design elegant and cared in details such as the handmade lights in ceramic and the crafts furnitures. From the moment of the check-in until the check-out, our team will take care of you for the entire duration of your stay paying attention to the different needs of all our guests to make everyone feel "at home, away from home". Our Suites, the SPA and the Terrace with a panoramic view are waiting for you to enjoy a pleasant and unforgettable experience.
